INSTRUMENTATION RENTAL & CALIBRATION SERVICES

Rental

Our instrumentation services include worldwide rental, calibration, and maintenance for radiological and industrial hygiene monitoring instruments to all market sectors. With more than 2,000 instruments in inventory, availability and fast delivery are guaranteed. We offer long-term and short-term lease options at affordable rates as well as professional consultation for custom instrumentation application and development.

Offers Include:

- A large inventory of Repair/Maintenance parts to support expedited requests;
- 34+ year history in servicing government clients worldwide with radiological and industrial hygiene and advanced survey instrumentation and technologies;
- State-of-the-art instrumentation center that has proven to provide a low risk, low cost, rapid, and highest quality option to all clients;
- GPS Walkover survey instrumentation
- Radiological Instrumentation for On-Site Laboratories

Calibration, Repair and Specialty Instrumentation

The Perma-Fix instrumentation facility, located in Knoxville, Tennessee, calibrates and repairs Radiation Detection and Industrial Hygiene instruments of many makes and models from a variety of manufacturers. Perma-Fix proudly staffs experienced full-service instrumentation technicians. Our team provides the highest quality calibrations and repair services for most major manufacturers' models. All rad calibrations are performed to the requirements of ANSI N323AB-2013 unless otherwise requested. Our lab is accredited to ISO/IEC 17025: 2017 and certified to ISO 9001: 2015. Perma-Fix operates the Instrumentation Services under Tennessee Department of Environment and Conservation, Division of Radiological Health, Radioactive Material License numbers R-47161 and R-47209 (issued to Safety and Ecology Corporation/SEC, a wholly owned subsidiary of Perma-Fix).

*Instrumentation rates are based on a quantity of one (1) each. Contact us for volume or long term discounts
